BAUMA China – Shanghai – November 25-28, 2008

Stand A28 – Outdoor area

International trade fair for construction machinery, building material machines, construction vehicles and equipment, BAUMA CHINA, is a key event in Asia. In 2006, more than 80,000 visitors came to the Shanghai New International Expo Centre to gather information about technological innovations for the construction industry and explore business. Until the first edition in 2002, Haulotte Group looks forward to giving its customers and partners a warm welcome on its stand. The 2008 exhibition will be a key event for Haulotte Group. Haulotte's new telescopic platform H28 TJ+ will be on display at this exhibition, and the specialist of people and material lifting equipment will present its sales organization in Asia area and more particularly China.

Haulotte Group will reveal its perspectives of development on the Asian area during a press conference on its Stand (A28 - outside zone), this meeting will be the occasion for Alexandre Saubot to present the whole sales network Haulotte Group in Asia, with in particular the new meshing in China.

As a result of 120 years heritage of innovation, creativity and imagination, HAULOTTE Group, the global manufacturer, specialist in people and material lifting equipment, has used its expertise to respond to customer needs with the launch of the innovative telescopic boom H28 TJ+.

➤ **The new telescopic big boom H28 TJ+**

The performance of the new platform **H28 TJ+** is unmatched by any other machines currently in the market. Due to its unique characteristics, this platform significantly increases the productivity in a wide range of working environments: a 6m telescopic jib, outreach of 23m, capacity to lift rapidly up to 350kg, operator comfort (proportional movements, generational control panel), outstanding mobility (oscillating axle, differential wheel lock). Visit us on our stand A28 to discover all the features of the new **H28 TJ+**.

Also displayed on Haulotte Group stand:

➤ **H43 TPX – Telescopic big boom**

4-wheel drive and steer, with extending and oscillating axles, a continuous 360° turntable rotation with simultaneous controls and high ground clearance. Extremely compact for working in difficult to access areas. The **H43 TPX** can be used in many industries such as building sites, shipbuilding, petrochemical and aerospace with optimal performance in all working environments.

➤ **Electric articulating boom HA15 IP**

HA15 IP has been designed to meet the needs of 15 m working height in confined indoor areas. This totally electric model with indoor and outdoor use offers a large number of advantages and features.

➤ **Rough terrain scissor Compact 12DX**

C12DX travel easily over all surfaces thanks to the standard four-wheel drive and the hydraulic differential lock ensures optimum traction. It find it use in many different fields such as construction and Public Works, cleaning...

➤ **Electric vertical mast Star 10**

The model **Star 10** was designed to meet a 10m working height requirement in confined indoor areas: extremely compact (a stowed height of 1.99m and a width of 0.99m, a 360° rotation with 0 tail swing), with outstanding access (positive / negative fly jib with +70° / - 70° movement), precise handling and high autonomy.

➤ **Push Around Quick Up 12**

Light, compact and designed for fragile floor-surfaces, the **QU12** is for indoor use and easily transportable.

On July, Haulotte Group has announced the acquisition of BIL-JAX, Inc; together, Haulotte and Bil-Jax will offer a competitive choice and better fulfill the needs of customers and partners. On booth A28 (outdoor area), Haulotte group will exhibit one machine of the "SUMMIT SERIES":

➤ **The Summit Series** offers a greater outreach and superior negative reach compared to models currently on the market. The trailer-mounted booms provide more versatility, are easier to transport and offer the most reach for the least cost. They are perfect for building

construction and repair; tree trimming; sign installation and repair; painting tall buildings and structures; and installing holiday lights and decorations.

➤ **Also on our stand : “Haulotte-Racing”**

After its first Moto GP 125&250 cc season, Haulotte Group is the new REPSOL-KTM official sponsor, in the same classes. On our stand you can take part in a game with the opportunity to win a gift and see a breathtaking video animation.

With a turnover for 2007 of € 648.1 million (roughly USD 1 billion), growth of 24.8%, and over 2 000 staff, Haulotte Group is reinforcing its production capacity, launching new products and the expanding of its commercial network.

In order to respond to customers' needs, Haulotte Group is extending its range of products and services to ensure ever improving efficiency and to continuously improve quality.
